

Venture Capital Fund Management

A comprehensive approach to investment practices and the entire operations of a VC firm

Written by a seasoned practitioner, *Venture Capital Fund Management* arguably provides the most comprehensive coverage of the entire professional practice of a venture capital firm. Offering in-depth explanations of concepts, practical advice on methodologies and suggestions of best practices, this book covers topics such as venture capital fund-raising, deal sourcing and screening, due diligence, valuation, deal structuring, deal negotiation and legal documentation, as well as the post-investment processes of monitoring, adding value and divestment.

This book also provides readers with crucial information surrounding issues that commonly affect venture capital firms, such as corporate governance, public disclosure, corporate structure, corporate qualities, fund performance measures, investor relations, tax, legal and staffing issues. Furthermore, by applying Total Quality Management (TQM) concepts to the due diligence process, the author has created a systematic approach to effective due diligence.

 Softcover – RM405.00

- An essential book for:
- Venture Capital and Private Equity investment practitioners
 - Legal and accounting professionals, bankers, investment advisers and consultants
 - Entrepreneurs and business angel investors
 - Business school undergraduate and postgraduate students

“This book is a godsend to legal practitioners who want to understand venture capital without the attendant technical jargon. It is extremely readable because of the case studies and at the same time contains a wealth of details. This book is a must for all serious corporate lawyers and an essential addition for all law libraries.”
 Low Seow Juan, Consultant to Lee and Lee, Advocates and Solicitors

“It is extremely comprehensive, and will be a help to anyone who intends to be a budding venture capitalist.”
 Koh Boon Hwee, Chairman, DBS Bank Ltd

“A most comprehensive reference handbook for all venture capital practitioners. I am delighted by the novel systematic approach to due diligence created by the author.”
 Chua Kee Lock, Managing Director, Walden International
